E32c+

32 Device Economy Charging Solution for Tablets, Laptops, and Chromebooks

acer

Smart Cycle Charging

32 Devices

Safe and Secure Storage

Efficient, Effortless, Economical

The E32c+ easily supports 32 laptops, Chromebooks and tablets with screens up to 16"
Just simply put your device into our charging cart. With larger space for 32 slots, one cart fits all

Supported Devices: please check actual device size, including power cable for compatibility with device compartment size

acer

''The Acer Charging Cart (32 slots) is for educational and business looking for an efficient, effortless and economical way to charge their devices easily and safely''

Space Saving Design

This is the space saving gadget (up to 25'') that's perfect for classrooms or similar environments.

Smart Cycle Charging Technology

Simply connect the E32c+ to an outlet and it will automatically and safely circulate power throughout each layer of devices.

Safe and Secured Storage

With the solid steel construction, the charging cart can store multiple devices inside and prevent them from crashing.
Built-in 2-point locking mechanism to secure your devices inside the charging cart.

User Friendly Design

The exterior casing features several user-friendly designs, such as non- slip (removable) rubber mat on top, cart handle and outer cable management hook that will allow users to better manage their cables and move around the cart freely and easily.
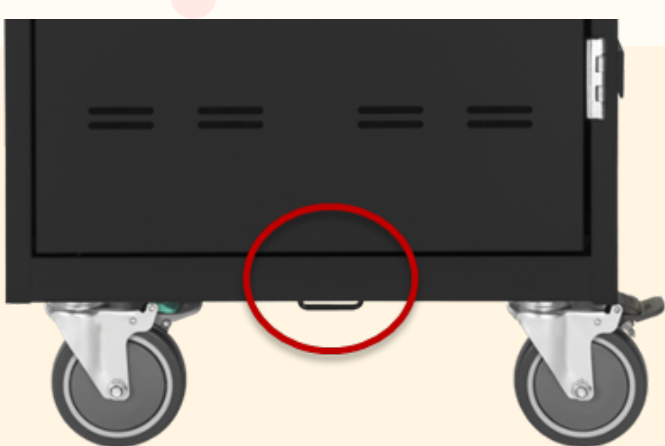

Easy to Move

The cart features 5" swivel casters, which make it easier to transport devices and provide a smooth mobile experience.

Upgrade on Our Charging Cart

-The charging cart comes with a metal ring allowing the charging cart to be locked to the wall, which enhances its security and is especially useful in certain usage scenarios.
