Hard-to-find **made easy**®

3-Port USB 3.0 Hub with USB-C™ and Gigabit Ethernet - Includes Power Adapter

HB30C3A1GE

Install the drivers

Mac

Once the hub is connected to your host laptop, you must follow the below steps to complete the driver installation:

1. Download the latest drivers. Use a web browser and navigate to www.startech.com/HB30C3A1GE.
2. Click the **Support** tab.
3. Download the driver.
4. When the download is complete, extract the contents of the compressed file that you downloaded.
5. Mount the **.dmg** file by double clicking it.
6. Once mounted, run the **.pkg** file by double clicking it.
7. Follow the on-screen instructions to complete the installation.

Note: If you are prompted to restart your computer, do so to complete the installation.

Windows

Once the hub is connected to your host laptop, the required drivers will install automatically.
