WARNINGS!

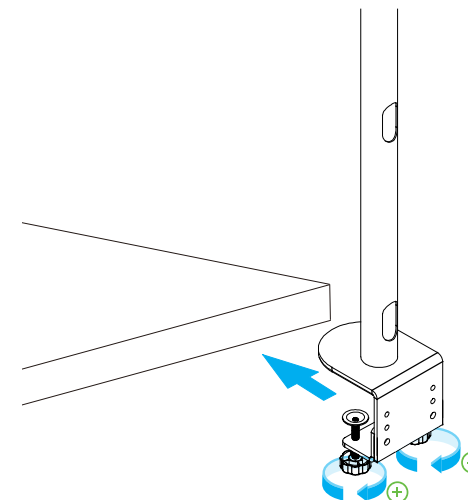

- StarTech.com Ltd. is not responsible for any property damage and/or personal injury resulting from the installation procedures outlined in this technical document
- Read the entire manual and ensure the instructions are fully understood before assembling and/or using this product. Failure to do so might result in personal injury or property damage
- Do not exceed the weight capacity of this product. Overloading this product might result in personal injury or property damage
- The weight capacity of the Monitor Mount: 33lb (15kg) x 2
- Never operate this product if parts are missing or damaged
- The Support Collars must not be solely used to support the weight of the mounted Monitors indefinitely. Once the Monitors have been suitably positioned, the Support Collar screws and the Monitor Mount Levers must be both adequately tightened to support the Monitors' weight. During installation or repositioning of the monitors about/along the pole, always, with the aid of a second person, verify that the Support Collars and and/or Monitor Mounts will support the monitors' weight before releasing them
- Do not over-tighten the M4 Screws. If resistance is encountered, stop tightening. Failure to do so, could result in damage to the Monitor(s)
