Smart control with Hue Bridge*

8719514388512

Automate your lights

Offering a traditional style with all the capabilities of the smart lighting system, this Inara wall light features the vintage-inspired Filament bulb. Add instant beauty to your outdoor space with a dimmable glow of warm white light.

Limitless possibilities

- Make it look like you're home with smart lights
- Vintage design meets modern capabilities

Full control from a smart device with the Hue bridge

- Requires a Philips Hue bridge

Specially designed for your outdoor spaces

- Set timers for your convenience
- Weather-proof (IP44)
- High-quality aluminium and superior synthetics

Highlights

Make it look like you're home

Use the Philips Hue app to schedule light routines whenever you're away. Your smart lights will turn on at the times you've selected, and sometimes a few minutes before or after, to truly mimic your presence in the house.

Vintage design meets modern capabilities

The vintage look of the Filament bulb, paired with the classic design of the fixture, make this a perfect accent piece. And with wireless dimming, you can set the mood instantly by dimming down low.

Requires a Philips Hue bridge

Connect your Philips Hue lights with the Bridge to control your lights from your smart phone or tablet via the Philips Hue app. Or control your Philips Hue lights with the Philips Hue dimmer indoor switch for on/off and dimming functionalities.

Set timers for convenience

Enjoy longer evenings outside, finish gardening or just put the rubbish outside after sunset. Have your Philips Hue lights turn on automatically by setting schedules or use the sunset/sunrise routine. And of course, you can also turn off or dim your lights this way. You'll never have to worry whether you've left any lights on.

Weather-proof (IP44)

This Philips Hue outdoor fixture is specially designed for use in outdoor environments and has undergone rigorous tests to ensure its performance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This lamp is designed with IP44: it is protected against water splashed from any direction. This product is ideal for general outdoor use.

High-quality

The products are made specifically for outdoor use. We use the highest-quality materials to ensure the best performance in outdoor conditions, as well as smart use of materials to optimise radio frequency.
