

Quick guide

Through its extensive channel network Eaton offers a range of warranties and service extensions for plug-and-play and hardwired UPSs up to 200kVA power range. The different options available mean you can choose the most beneficial method to safeguard your equipment performance and reliability.

Extended Warranties

Warranty+1

This service gives you a peace of mind for **1 or 3 years** in addition to the warranty of the product.

- The product is covered by a **standard exchange**
- Shipping costs covered by Eaton
- **Professional helpline during working hours**
- This offer covers both electronic parts and batteries*
- **Can be renewed for a time total period of maximum seven (7) years**

Warranty+3

Warranty Advance

This service provides customers with a **higher service level** compared to a standard warranty **for 3 years**:

- **1 on-site intervention** (in case of breakdown) during the first 2 years
- **1 maintenance visit** in the last year (In case no intervention due to a breakdown was necessary before the third year)
- Technical updates
- 25% of discount on spare parts and batteries during 2nd and 3rd year
- A **professional, customised helpline** at your service
- **Emergency response** (travel to site within 8 hours)**

***During normal working hours (in the country where the UPS is installed), excluding public holidays, Saturdays and Sundays.*

Remote Monitoring with Extended Warranties

Connected Warranty+1

Connected Warranty+3

Extend the warranty for 1 or 3 years and get the full peace of mind thanks to **Eaton devices' supervision**

- **Cyber Secured Remote monitoring** for the covered time
- **Monthly Health report**
- **Professional helpline during working hours**
- **Standard exchange** of the equipment speeded up thanks to the remote diagnostic
- Electronic parts and batteries coverage *
- **Renewal possibility for up to 7 years in total**

**Normal battery aging and « recommend battery replacement » message visible on the display do not imply batteries' faults and therefore are not covered by the warranty*

Service on site

Intervention

This distributed service provides an **Eaton technician** for UPS commissioning or a preventive maintenance visit:

- **Professional helpline** to offer support and book intervention dates
- Intervention service can be bought from Eaton resellers at any time during the life of your UPS
- This offer is not intended to be used as a repair service in case of UPS failure

Battery replacements

Easy Battery+

A complete batteries tray to exchange their batteries. The whole batteries exchange process will be therefore much **quicker and safer** than swapping batteries one by one.

Battery+

This service provides the correct batteries for your off-line UPS

Eaton Extended Warranties can be bought only during standard warranty or extended warranty period.
