

## DST970X2

Display size  
**40"-70"**

Max load  
**125lb (57kg)**  
per display

\*Maximum display width is 44"  
when facing the same direction

# Dual-Display Ceiling Mount

## FOR 40"-70" DISPLAYS

The DST970X2 Dual-Display Ceiling Mount from Peerless-AV® is the ideal mount for a digital signage application where two displays are required. The heavy gauge steel construction has been designed to effortlessly support two displays from a single column. By doing this, installation time is reduced, costs are lowered, and overall aesthetics are increased. With independent swivel and tilt, each display can be set to the optimal position to reach the target audience. The universal adaptors, which accommodate mounting hole patterns up to 600 x 400mm, are compatible with most displays in the 40"-70" range.

***DST970X2 provides independent swivel and tilt, allowing each display to be positioned at the perfect viewing angle.***

### Additional Features

- ✓ Included universal adaptor plate will accommodate most displays in the 40"-70" range (note: display width is limited to 44" if both displays are facing forward)
- ✓ Compatible with an extensive line of Peerless-AV® fixed length and adjustable extension columns
- ✓ Simple hook on display attachment makes set-up quick and easy
