

Future Capability Outlook for the US Air Force

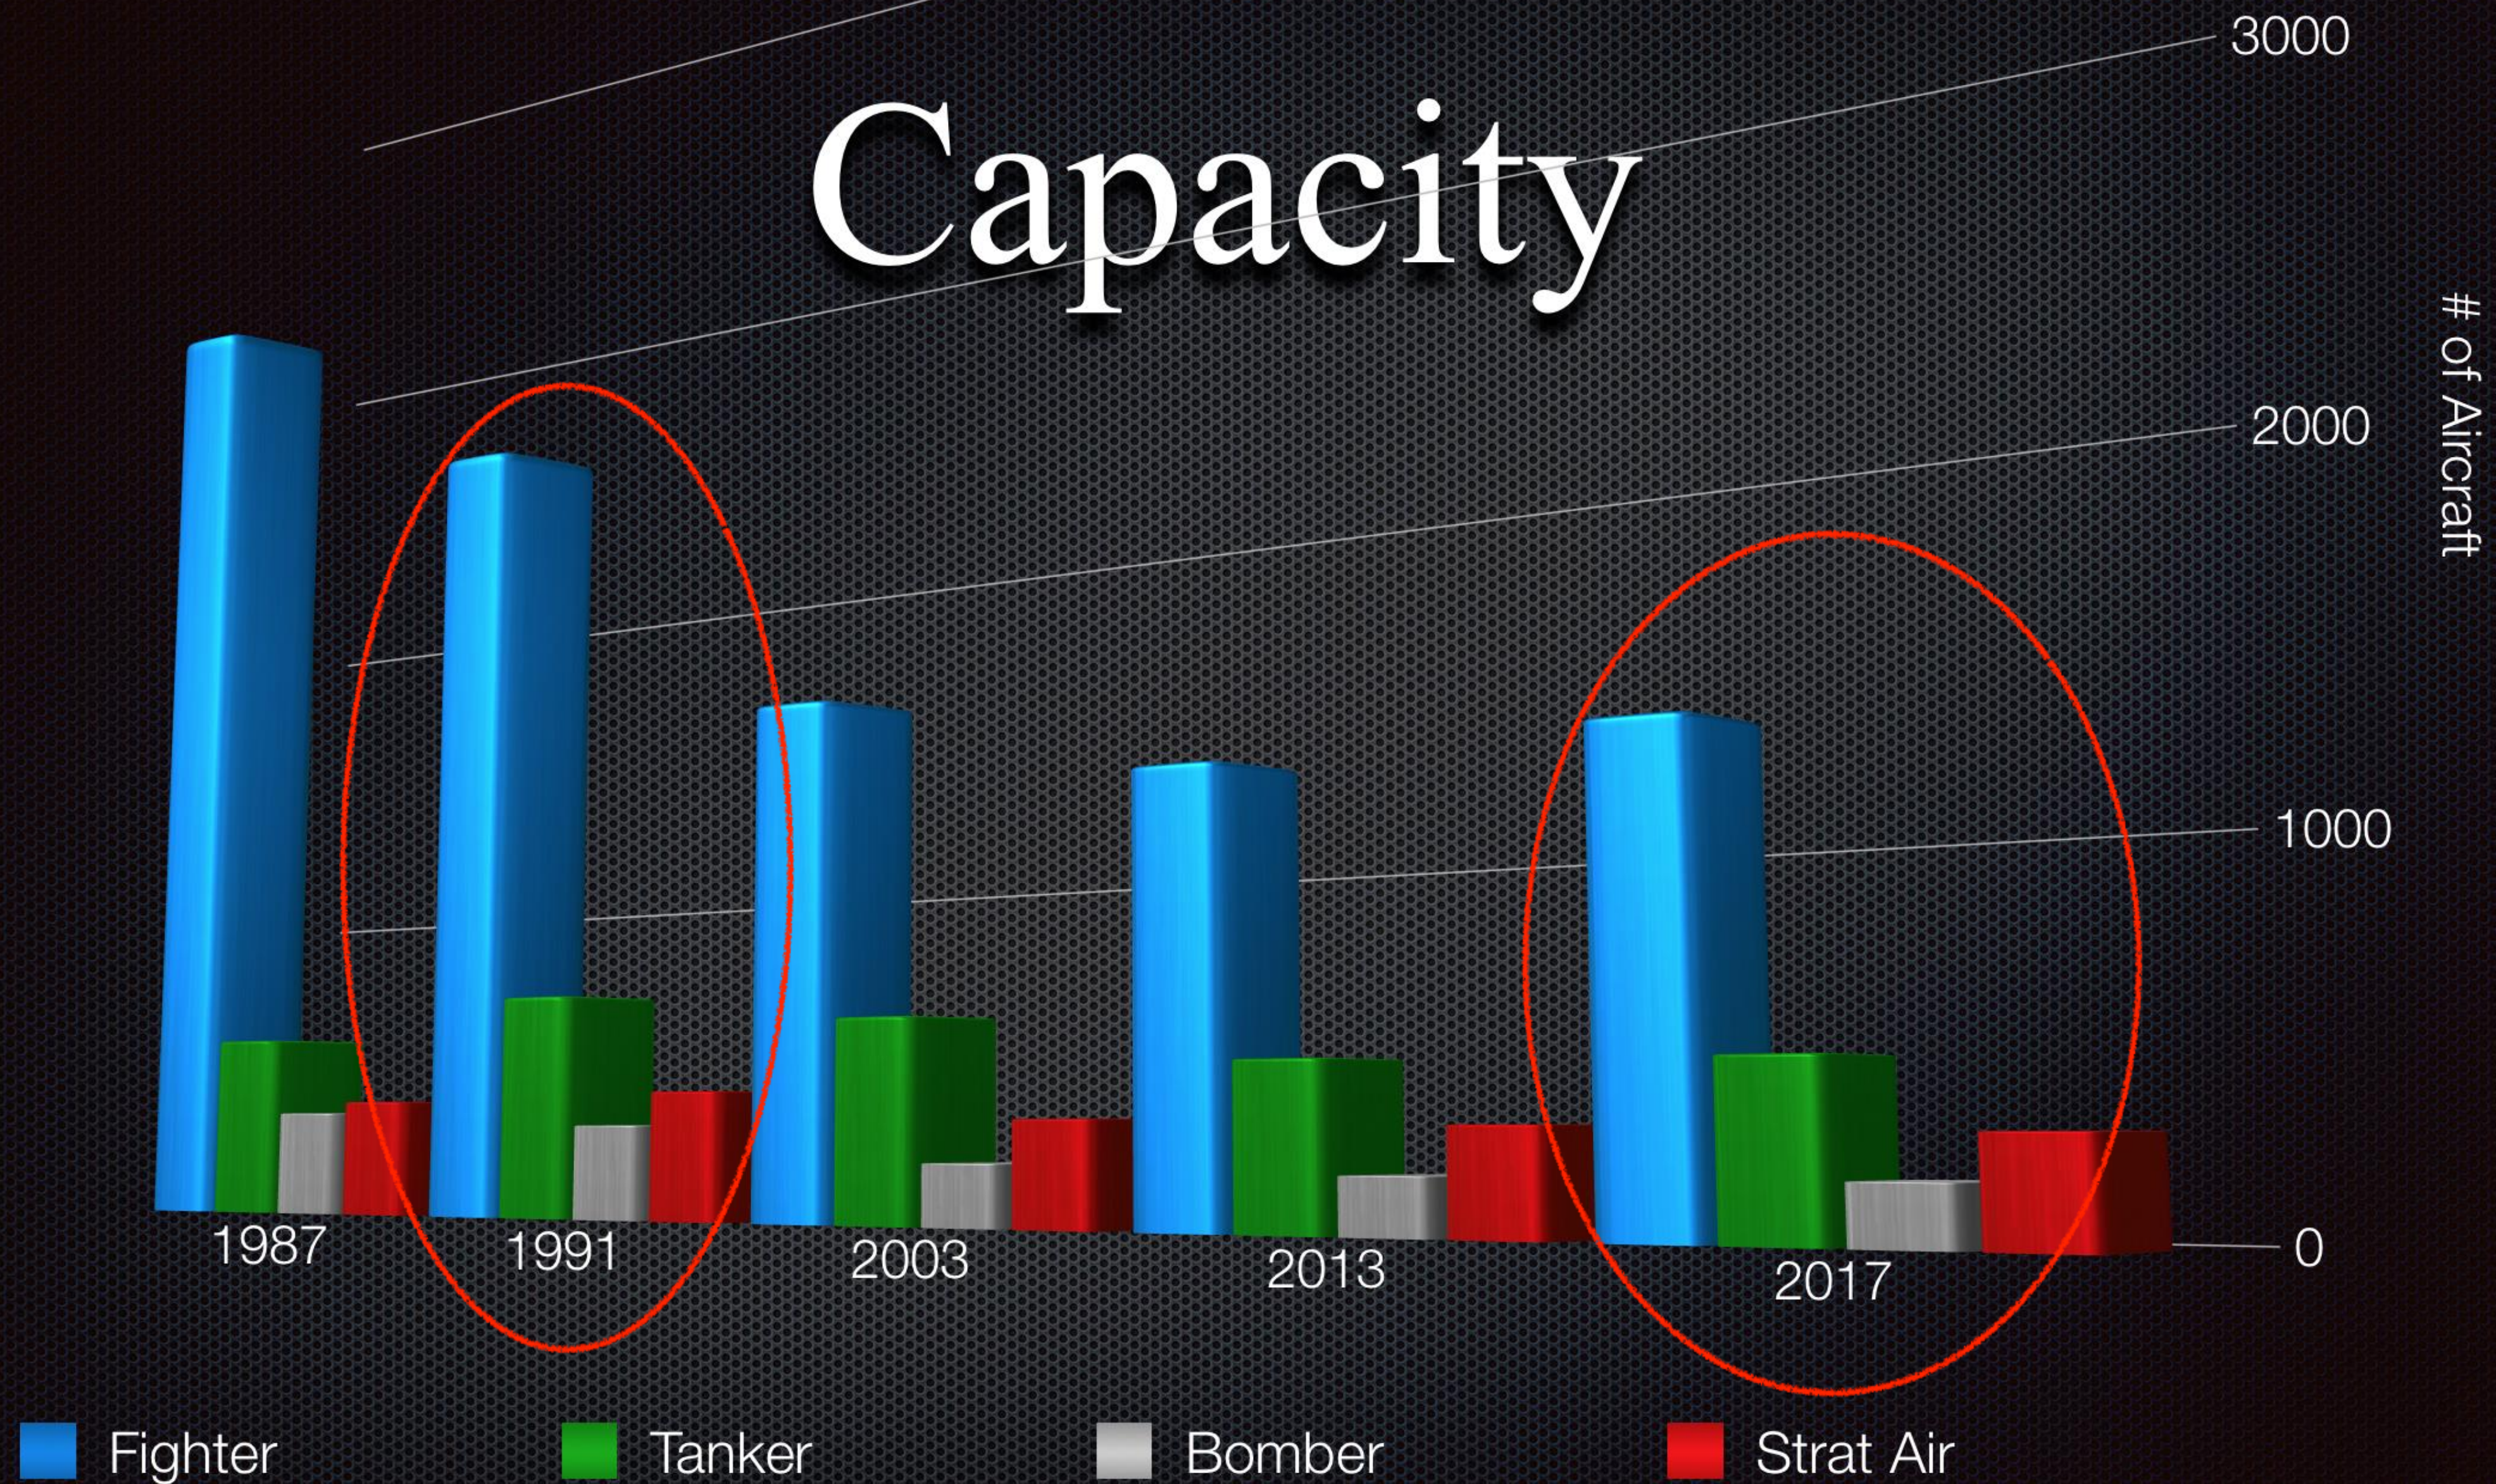

JV Venable
The Heritage Foundation

2018 National Military Strategy

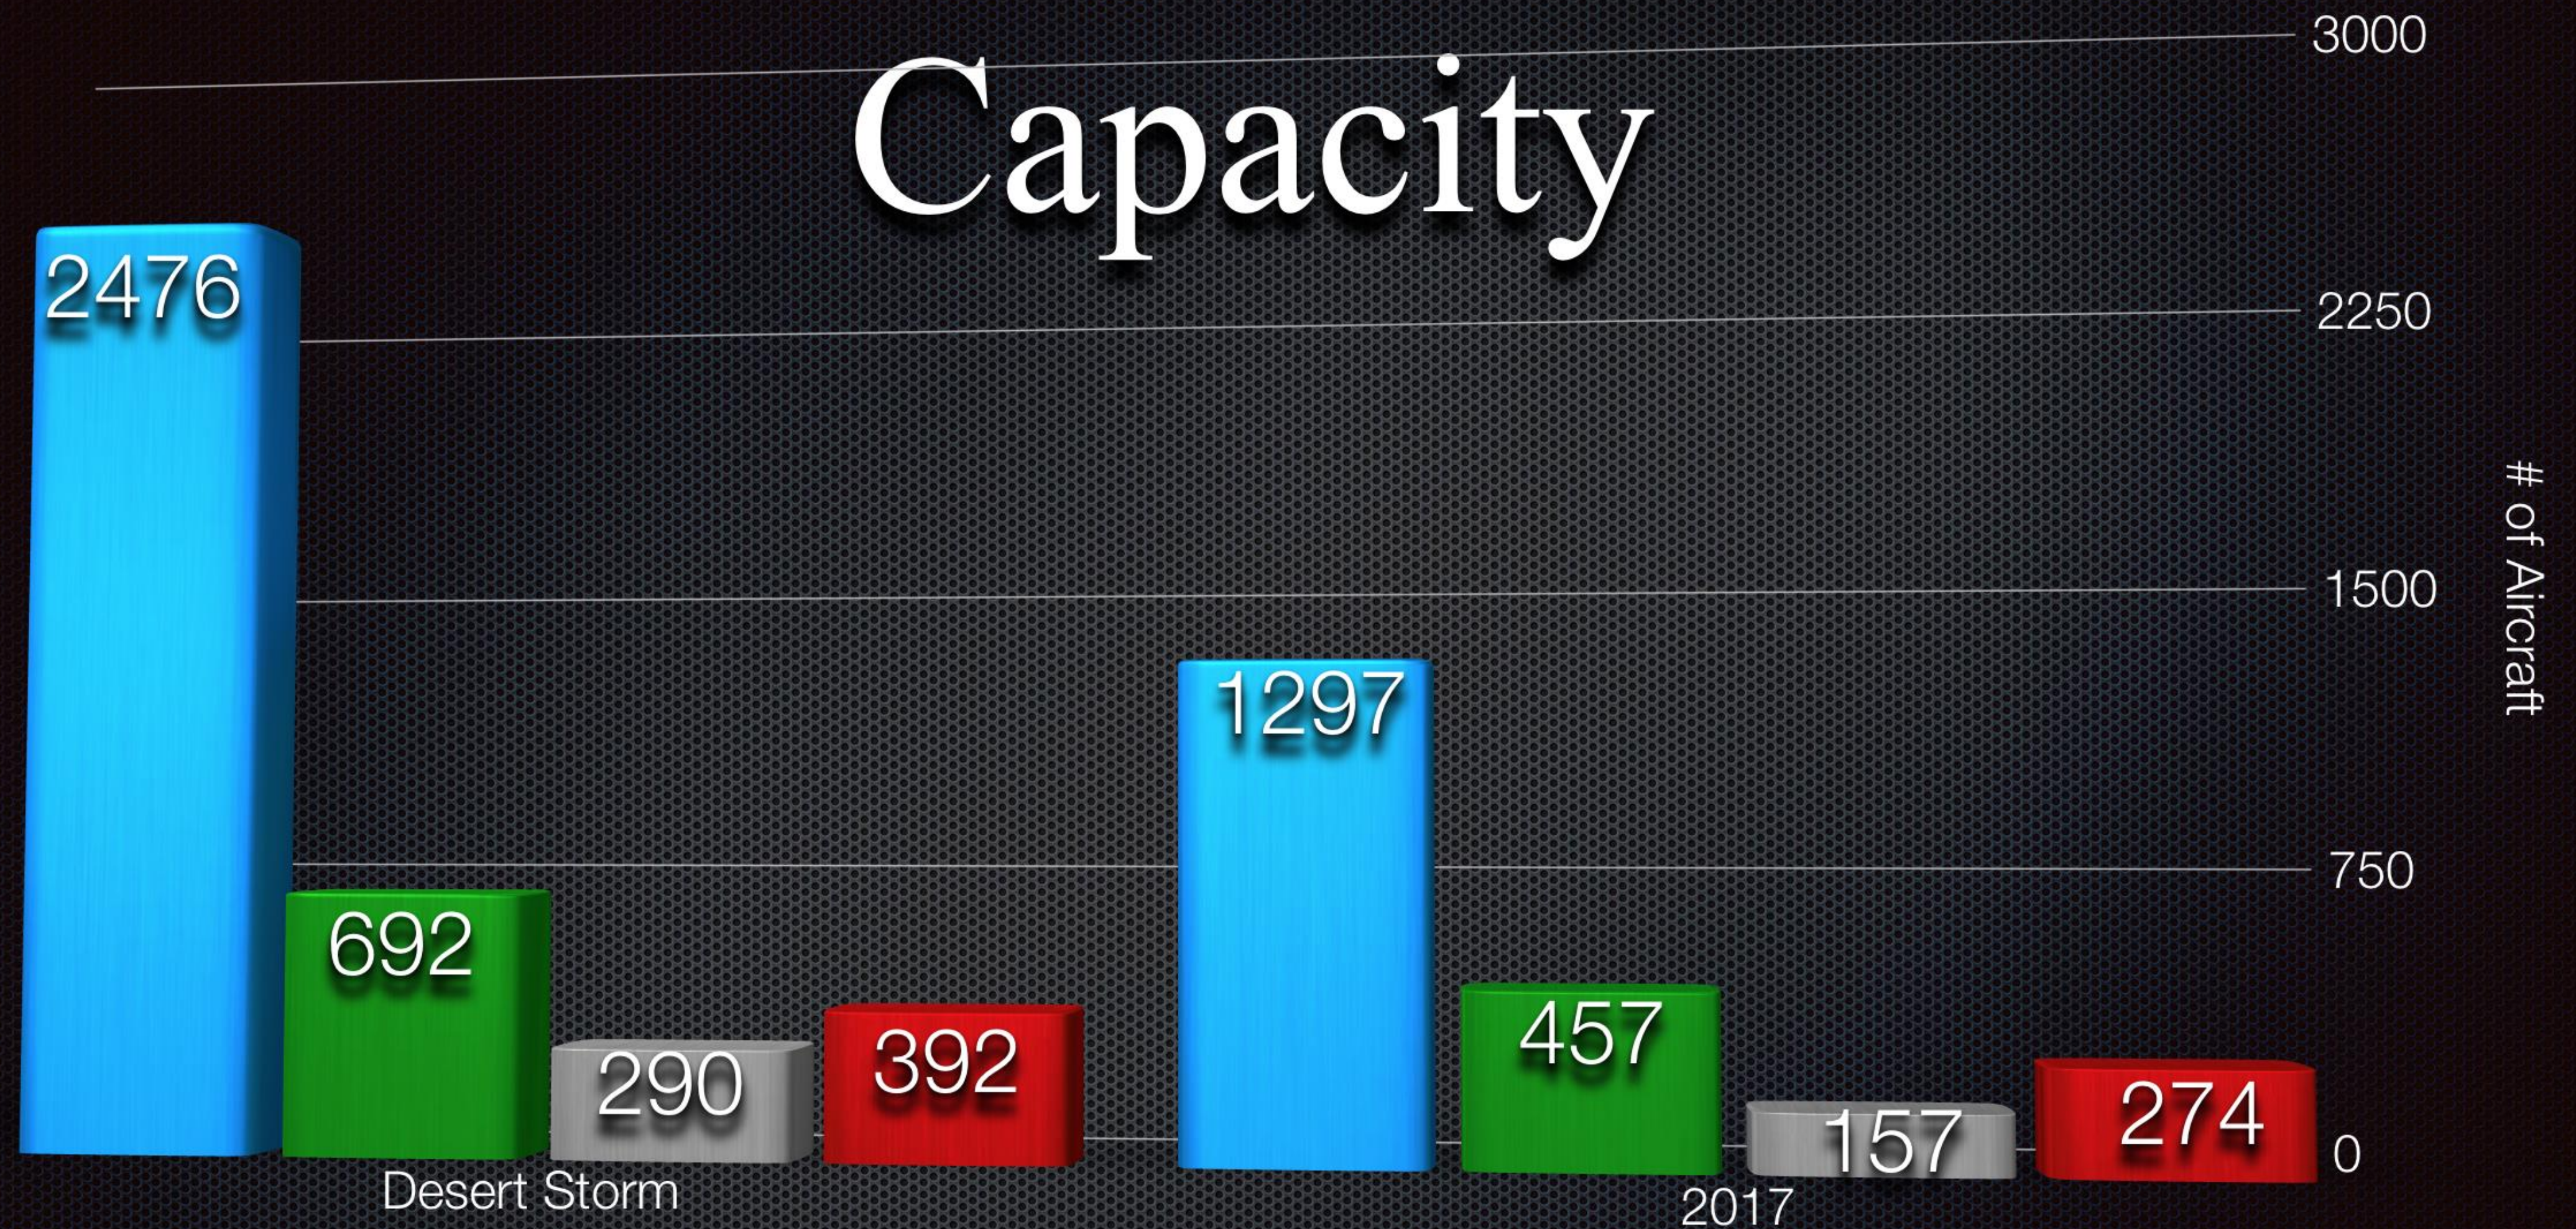

“... the fully mobilized Joint Force will be capable of Defeating aggression by a major power, deterring opportunistic aggression elsewhere...”

“and disrupting imminent terrorist and nuclear strategic WMD threats”

THE AIR FORCE WE NEED OBJECTIVES

2018
NATIONAL
DEFENSE
STRATEGY

Rebuilding military
readiness as we build a
more lethal Joint Force

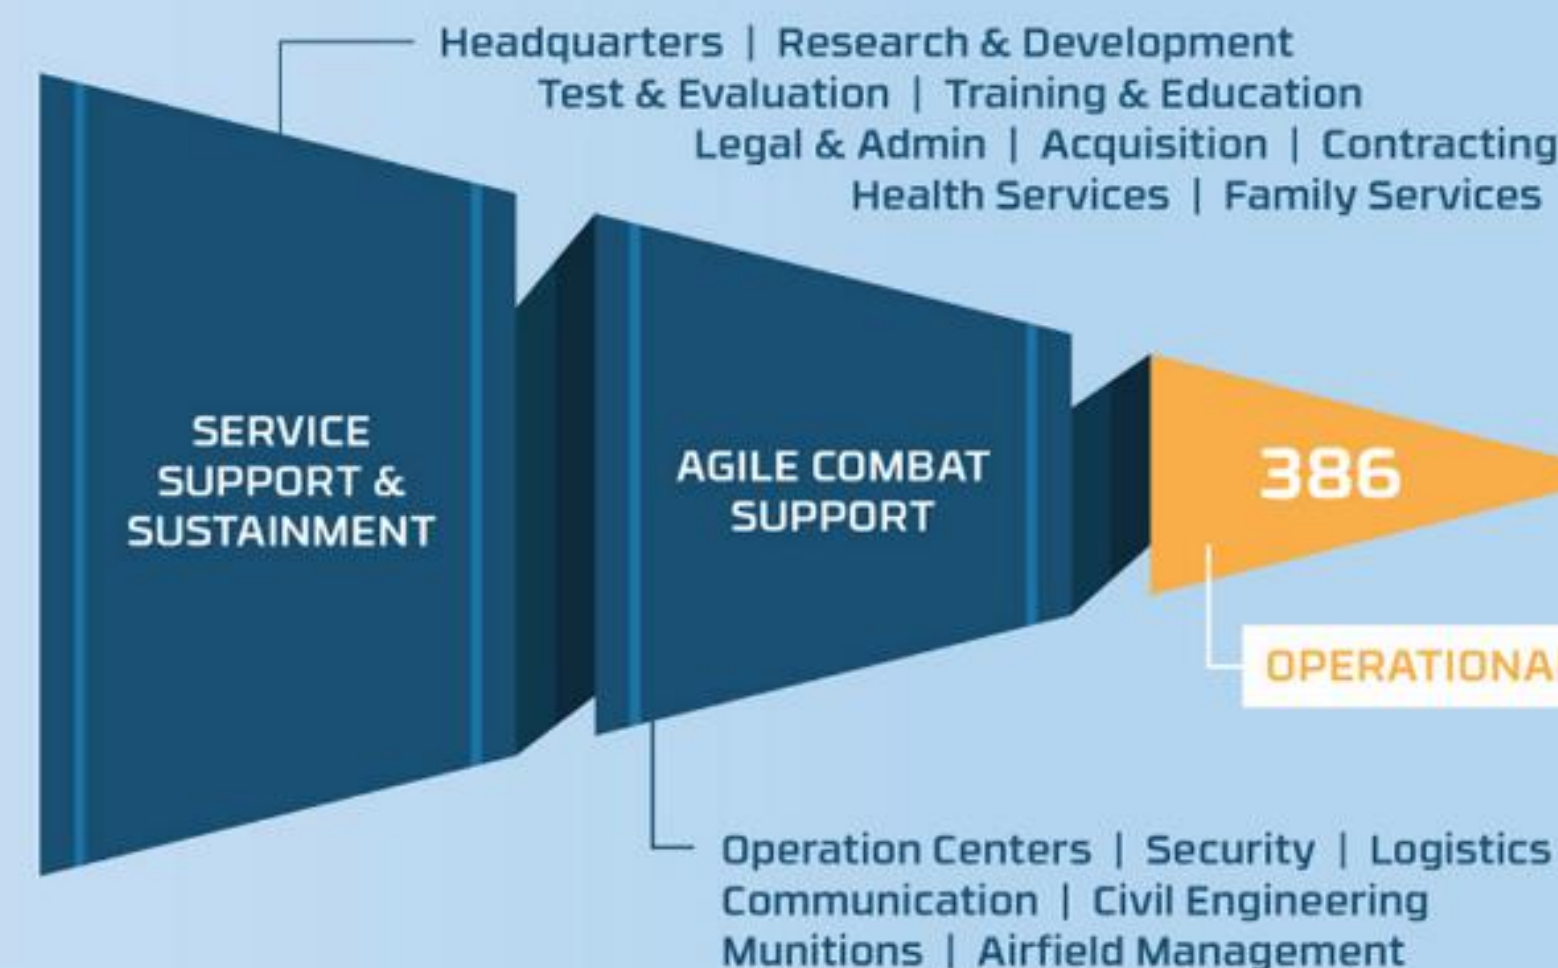

COUNTERING THE THREAT

- Compete long-term with China and Russia
- Deter and counter rogue regimes (North Korea and Iran)
- Deter opportunistic aggression elsewhere
- Defeat terrorist threats to the U.S.
- Defend interests from challenges below the level of armed conflict

WHAT IT WILL TAKE

- Support from Congress
- Long-term commitment to grow
- Budget predictability and stability
- Trained, equipped and ready Airmen

Money Matters

Capability (NDS)

“The Joint Force must be able to strike diverse targets inside adversary air and missile defense networks...”

“investments will prioritize developing resilient, survivable, federated networks and information eco-Systems...”

Capacity & Capability

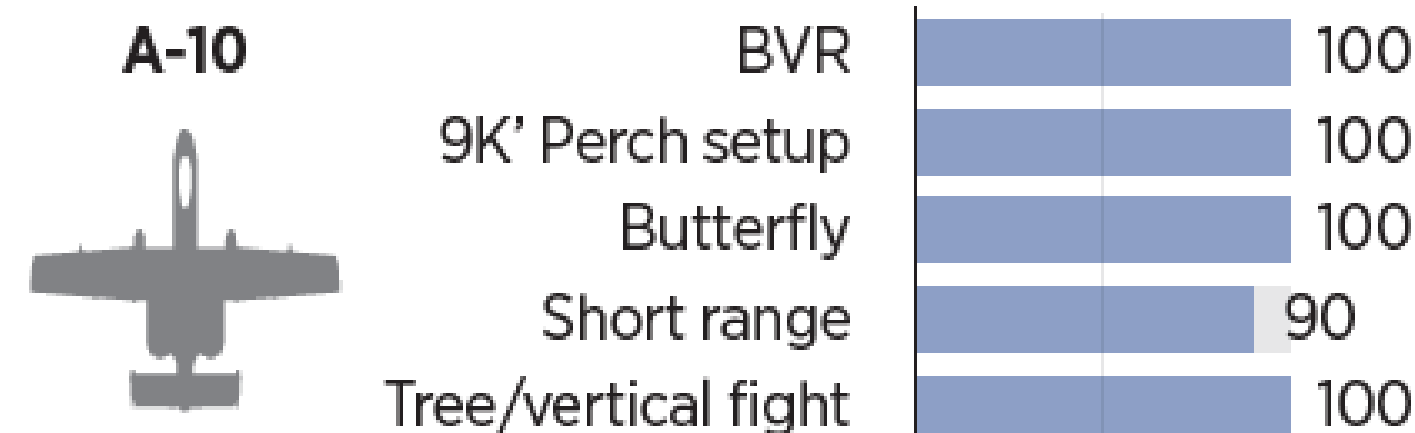

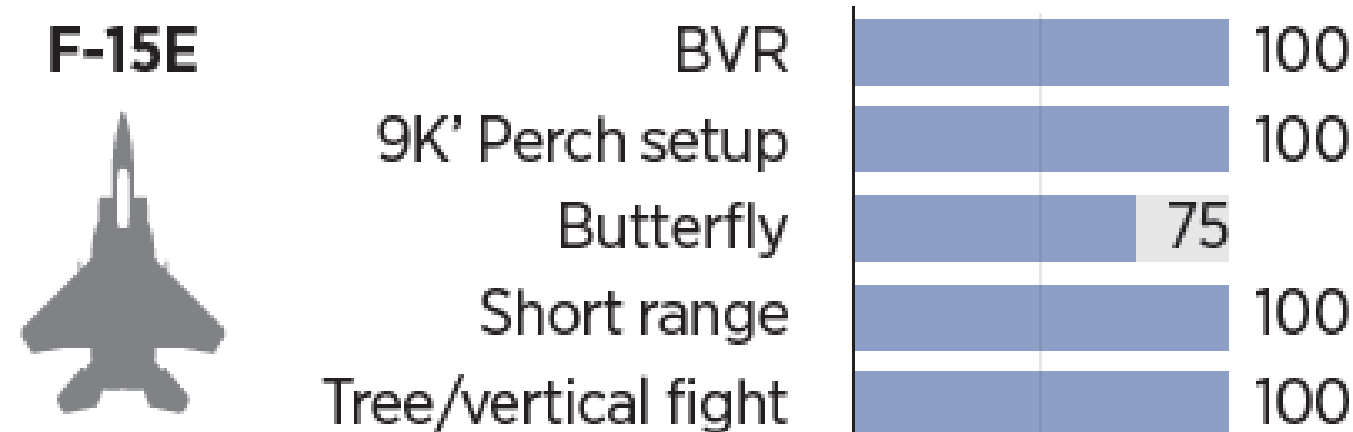

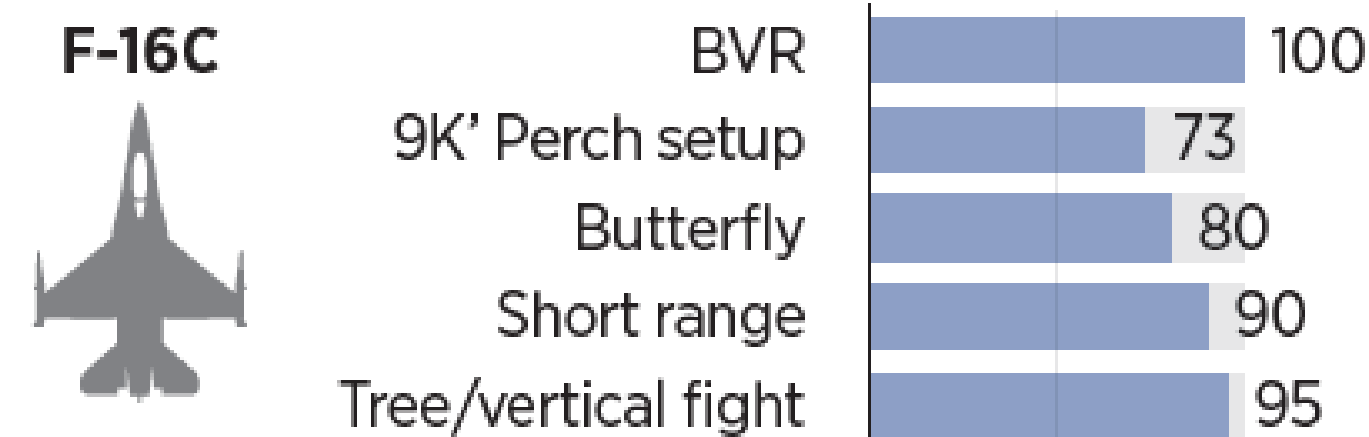

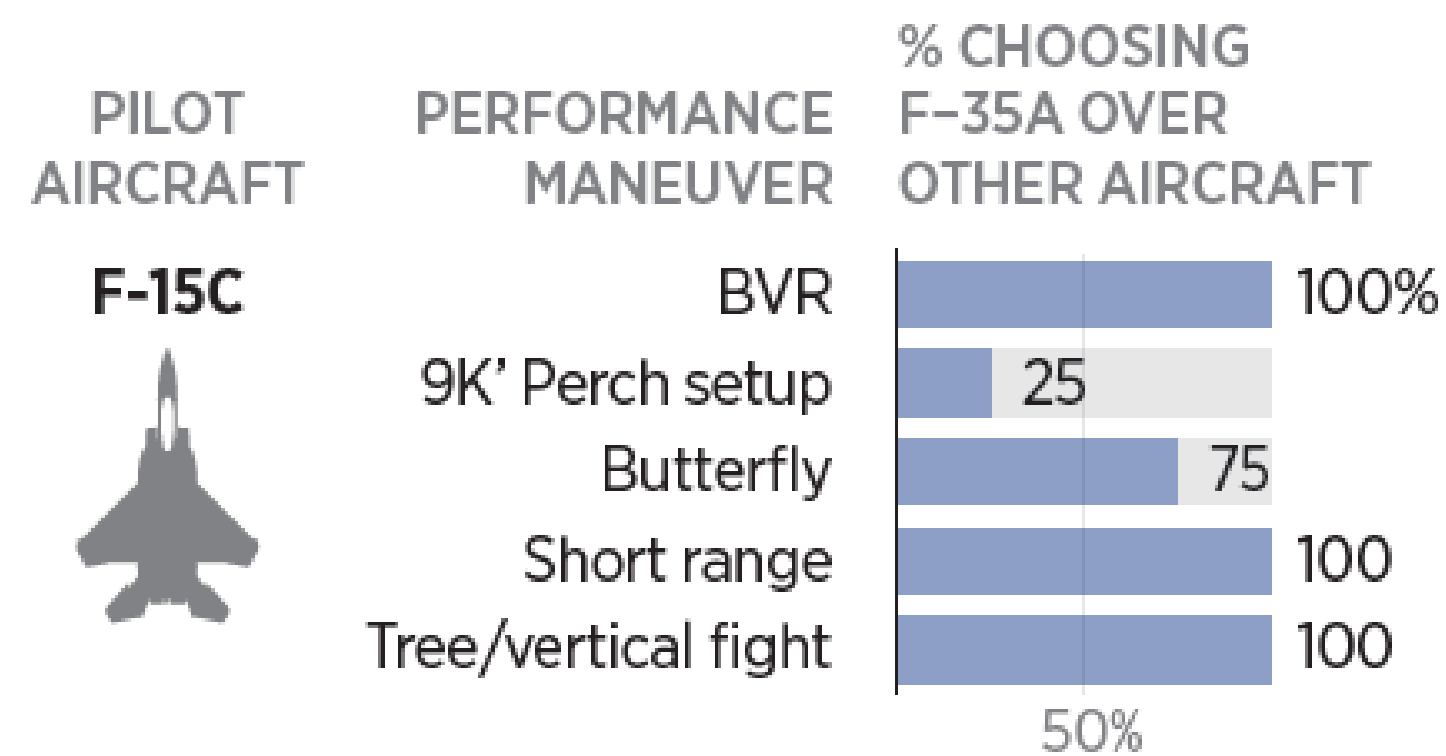

- Need 72 Fighters/Yr to Grow Beyond Retirements
- Fleet is 18% 5th Generation Fighters
- How Should US *Balance* Capacity & Capability?
- Generational Relevance

The Evolution of Fighter Aircraft

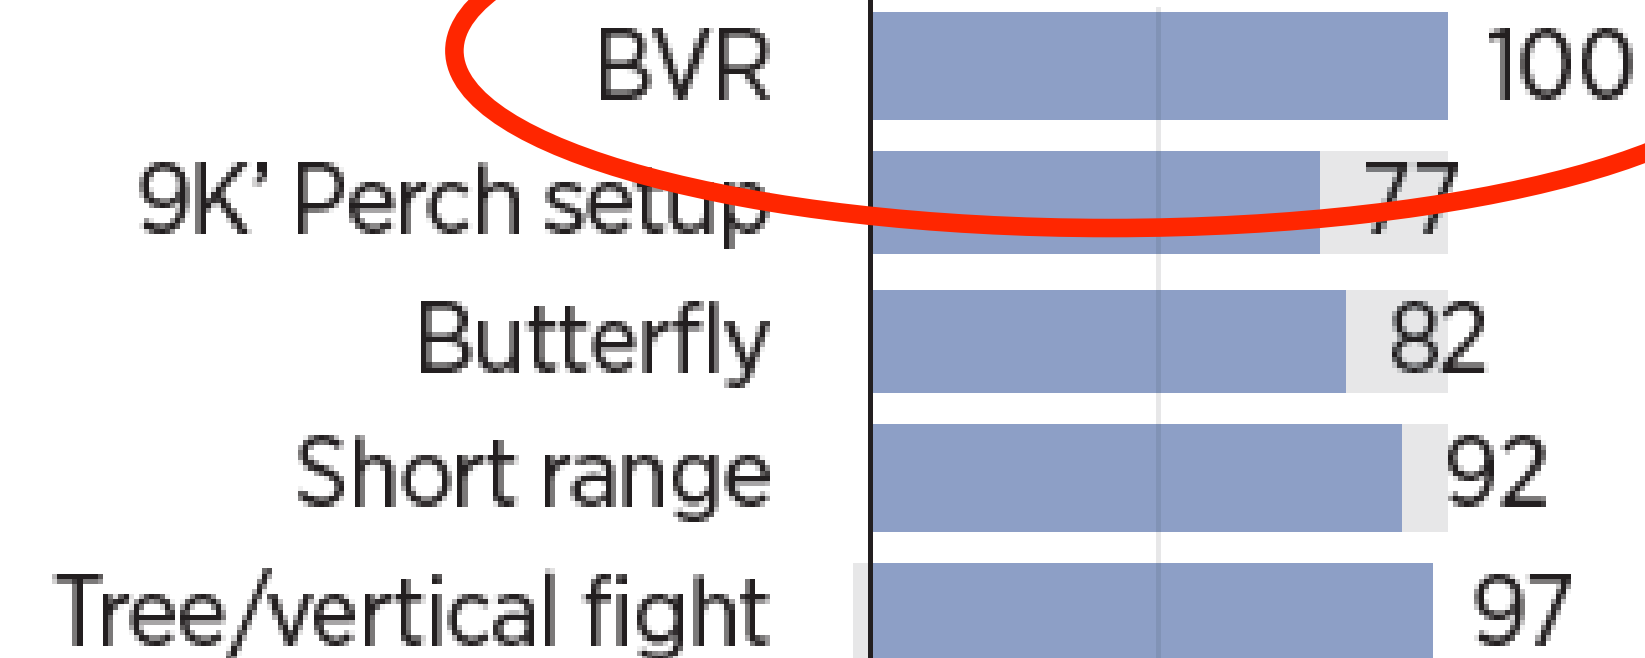

■ LEVEL COMPARABLE TO 5TH GENERATION

	1st Generation	2nd	3rd	4th	4th+	5th
Era	Korea	1955–1965	1965–1975	1975–1995	1995–present	2005–present
Speed	Subsonic jet	Mach 1+	Mach 1–2+	Mach 1–2+	Mach 1–2+	Mach 1–2+
Weaponry	Gun only	Gun and IR tail aspect missile	Gun and all aspect radar missile	Gun and all aspect IR + radar missile	Gun and all aspect IR + radar missile	Gun and all aspect IR + radar missile
Engagement	</= 1,500 feet	1–3 miles (tail only)	Limited all aspect	All aspect look down	All aspect look down	All aspect look down
Energy and Maneuverability	Low energy, high maneuverability	Low energy, low maneuverability	Low energy, low maneuverability	High energy, high maneuverability	High energy, high maneuverability	High energy, high maneuverability
Detection of Enemy Fighter	None	>/=10 NM	>/=20 NM	</=50 NM	>/=100 NM	>/=100 NM
Sensor Fusion	None	None	None	None	Limited	Full
Stealth	None	None	None	None	Reduced RCS	Full

Pilots Prefer Flying F-35A

All surveyed pilots

“I would now take the F 35 to combat any day and anywhere in the world.”

Balance

- Nations *Weather* Balance
 - Sustain Capacity with Residual Capability
- *Buying* Balance Is Different. F-15X Fielded by 2030
 - 5th Gen SAMs In Syria Now. Where in 2030?
 - Long Term Viability of *New* 4th Gen Worth Cost?

NDS Capability Essentials

- Obtain and Maintain High Situational Awareness
 - AF Multi-Domain Command & Control
 - AF Airborne Battle Management System
- Big Acquisitions Should:
 - Employ in IADS or Support that Employment
 - Feed Federated Network

Future AF Capability Outlook

- NDAA Sets Acquisition Agenda for 2020
- 72 x F-35s/Year - Improves Mix to 50/50 by 2030
- Future is the F-22, F-35, B-21, KC-46
- US Weathers 4th Gen Fleet until F-35 Fielded... and
- Next Gen Sensor/Shooter is Developed

Discussion to Follow
