Our Clientele

At Padra Designs, our expertise extends beyond residential spaces to a wide range of commercial projects. We are proud to serve as the in-house design team for Navis HR, a Japanese-based company with a branch in Jayanagar, Bengaluru. Our partnership with Karter Developers, UK, has also been highly rewarding — they were impressed by our design approach and have entrusted us with additional upcoming projects. In addition to our commercial and residential work, we have successfully designed and executed landscaping projects for several schools and are honored to be associated with Sumangali Seva Ashram, contributing to their mission through thoughtful design solutions.
