Where to Buy

Feel the passion. See the brilliance.

The Hisense QD7 Series changes the TV game. It's a solid introduction to realistic Mini-LED contrasts and QLED Color with over one billion shades. Dolby Vision HDR and Dolby Atmos put you in the stands, so you can see every blade of grass, hear every call of the ref and cheer of the fans. And advance your gameplay with Game Mode Plus and 144Hz Game Mode Pro\* by virtually eliminating screen tearing.

# Why Choose the QD7 Series?

Superb contrast.  
Striking clarity.

See more contrast on the field and off. Lots of tiny LEDs make a major difference when it comes to the realism of your picture. Think of them like pinpoint of light illuminating your screen. And Full Array Local Dimming creates deeper shadows and brighter highlights, while virtually eliminating halos.

Billion+ shades of  
vivid color

Experience a visual treat with QLED Color. Every frame is rich, vibrant, and true-to-life, ensuring every color, from the most subtle to the most vibrant, stands out.

Maintain your  
competitive edge

Unlock the next level in gaming! 144Hz Game Mode Pro with an integrated game bar has a Variable Refresh Rate of 48Hz to 144Hz for a smooth, lag-free playing experience. This feature feels like an extra life, whether your game of choice is action, adventure, role-playing, multi-player or strategy.

See. Hear.  
Spectacular.

Never miss a minute of the action-from your couch. Dolby Atmos®, the next evolution of surround sound, creates a moving and immersive audio experience, for every call of the ref and cheer of the fans. And Dolby Vision®, with more flare and

Keep your eye on the  
ball

See all the action clearly, including super-fast breakaways and three-point plays. The Native 144Hz Smooth Motion is powered by advanced features like MEMC, AI noise Reduction and a built-in highly responsive panel to create

Remaster every pixel

Stream your favorite live sports and shows with striking clarity. AI 4K Upscaler uses machine learning models to enhance low-resolution content to near 4k quality. Watch beloved movies, home videos and TV broadcasts with sharper edges, more

more depth, enhancing the detail of the picture, down to each shadow cast on the field.

an ultra-crisp, blur-free picture—no matter the speed of movement on the screen.

detailed textures and improved visual quality.
