MAGIC MASALA

If you are feeling low, broke, unemployed, hungry, or COVID-positive, don't worry. A little bit of saffron can fix everything

Can something reduce the number of times I yell at my siblings for irritating me?

Can something actually stop others from irritating me?

Can anything help me get a little less irritation?

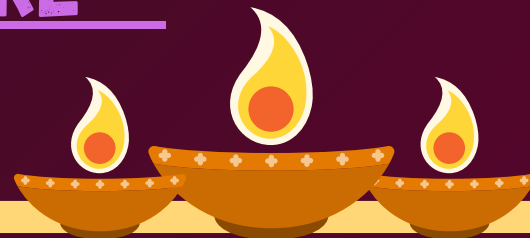

Can anything make me get a celebrity treatment?

Sounds interesting right? You would be shocked that the actual credit behind all of the above goes to the one and only- SAFFRON.

From a minute change of mood to a big confidence boost, Saffron can do it all.

Wanna know how? Just start from this story.....

TECH DIGEST

Aloe magic: Herbal panacea can now power green batteries

A natural moisturizer and herbal panacea for disease, the soothing aloe vera can also generate electricity and power batteries. Replacing toxic metals like lead and mercury in a dry cell, a Lucknow girl and a Rajasthan youth have used aloe vera extracts and other herbal products to form a 'green e-cell' that's both eco-friendly and non-hazardous. The innovation won accolades and will be part of the top eight start-ups from across the world at the Innovation Summit

AMAZING FACTS

Dhanteras, India's Golden Day

It is estimated that Indian households hold a record 11% of the the total gold in the world and a large chunk of it is bought every year as a custom during the festival of Dhanteras.

Clouds may look very lightweight but the science says otherwise. The average cumulus cloud you can see during the sunny day, weight around 500,000 kg (1.1 million pounds)

BRAIN TEASERS

Starting with Easy Peasy

- What five letter word becomes shorter when you add two letters to it?
- Imagine you are in a sinking rowboat surrounded by sharks. How would you survive?

One Level Up

- What can you keep but cannot share and once you share it, you can't keep it anymore?

Not So EASY

- You have a 100 coins laying flat on a table, each with a head side and a tail side. 10 of them are heads up, 90 are tails up. You can't feel, see or in any other way find out which 10 are heads up. Your goal: split the coins into two piles so there are the same number of heads-up coins in each pile.
