

oneJOURNEY

Leading edge, dynamic TRIP
ITINERARY

Dynamic Travel Itinerary that reflects the Travel Cycle

Simple • Smart • Seamless

Travel technology created by travel experts for travel experts. Our technology provides **SIMPLE, SMART, SEAMLESS** and **COLLABORATIVE** booking solutions suited to both leisure and corporate travel. **oneWORLD** allows for a personalized and engaging real time experience with an agent either in person or remotely.

one JOURNEY

Fully functioning web based itinerary

Our rich content itinerary is fully collaborative with full booking capabilities for the agent and the customer at any stage of the travel process

Itinerary is delivered as a personal website for each customer and each trip

Dream, plan, book, experience, share

Key functionality of our Dynamic Itinerary Tool:

- ✔ Collaborative booking with multiple travellers in multiple languages and currencies in real time on the one trip
- ✔ Customer can share their proposed trip with friends via inbuilt messenger functionality
- ✔ oneJourney delivers relevant content and in destination information while the customer is travelling
- ✔ Dynamic real time booking process that gives all participants the ability to create the perfect trip
- ✔ Agent can push relevant content to oneJourney when the traveller is in destination
- ✔ Allows for in destination land bookings by the customer and the agent collects the commission
