PROFESSIONAL SUMMARY

High-potential Tech Architect and Full-Stack Engineer leveraging AI-augmented development to 10x output and focus on high-level system logic. Expert in building autonomous AI agents and scalable web architectures using Next.js, Node.js, Python, and AI Agents. Proven track record of integrating RAG pipelines and LLM orchestration to automate enterprise-grade workflows.

EXPERIENCE

Growify India

September 2025 – Present

Full Stack Developer & Content head

- Architected a scalable home renovation platform featuring secure Aadhaar-based identity verification and multi-role authentication frameworks, ensuring enterprise-grade security and marketplace trust.
- Developed complex financial modules including Escrow payment integrations and GenAI-driven design recommendations to facilitate secure transactions and automate internal service workflows.
- Collaborated on the deployment of AI-assisted design features to streamline the service provider marketplace and enhance user decision-making processes through intelligent system logic.

Freelance

November 2024 – September 2024

Full Stack & AI Agent Developer

- Engineered high-performance full-stack applications using Next.js and Node.js, deploying autonomous AI agents for real-time task automation and intelligent user interactions via LLM API integrations.
- Implemented Retrieval-Augmented Generation (RAG) pipelines to enhance the accuracy of AI-driven chat interfaces, reducing hallucination rates in production environments by 40%.

PROJECTS

HireMentis AI SaaS [LIVE](#) [CODE](#)

AI-Powered SaaS Interview Preparation Platform

- Developed a comprehensive SaaS platform for AI-driven mock interviews, integrating Vapi (GPT-4o), Deepgram, and ElevenLabs for low-latency, natural voice interaction.
- Engineered a responsive frontend architecture with Next.js and Firebase, leveraging advanced prompt engineering to deliver tailored AI feedback based on specific job listings.

Get Hired Faster with AI-Powered Precision

- Craft an industry-standard, ATS-optimized resume in minutes. Revamp your old resume or let our deep-learning engine analyze your ATS score instantly.

EDUCATION

IIMT University

2023 – 2027 (Expected)

Bachelor of Technology (B.Tech)

SKILLS

AI-Augmented Development (Claude Code, Cursor, LLMs), LLM Orchestration (LangChain, LangGraph), Full-Stack Architecture (Next.js, React.js, Node.js), Python & TypeScript, RAG Implementation & Prompt Engineering, Vector & Graph Databases, Cloud Infrastructure (AWS, GCP), System Logic & API Design
