

TA-MP15B

Heavy-Duty Dual Pole TV Trolley

TV
50kg/110lbs

Screen Size
40"-70"

VESA Compatible
Max. 600x400

Product Overview

TA-MP15B Heavy-Duty Dual Pole TV Trolley is a professional mobile display mounting solution designed for 40" to 70" displays with a maximum load capacity of 50 kg. Its robust dual-pole construction provides enhanced stability and support for commercial and professional AV installations.

The trolley supports display mounting patterns up to VESA 600 × 400 mm and features adjustable mounting positions for flexible display installation. The integrated adjustment mechanism allows the display to be tilted by ±15°, helping users achieve a suitable viewing angle.

A dedicated equipment shelf provides convenient space for AV equipment such as media players, conferencing devices, laptops, or other accessories. The trolley also incorporates a camera mounting provision, making it particularly suitable for video conferencing and collaboration environments.

The mobile caster-wheel base allows the complete display setup to be repositioned easily when required. With its combination of height adjustment, display tilt, equipment storage, and camera support, the TA-MP15B is ideal for conference rooms, meeting rooms, classrooms, training rooms, corporate offices, exhibitions, and professional video conferencing applications.

Key Features

- Supports 40"–70" displays
- Maximum load capacity: 50 kg
- Maximum VESA: 600 × 400 mm
- Dual-pole heavy-duty construction
- Adjustable display mounting height
- ±15° tilt adjustment
- Integrated equipment shelf
- Camera mounting provision
- Mobile trolley design with caster wheels
- Stable wide base for professional installations
- Suitable for meeting rooms and video conferencing

Mechanical Specifications

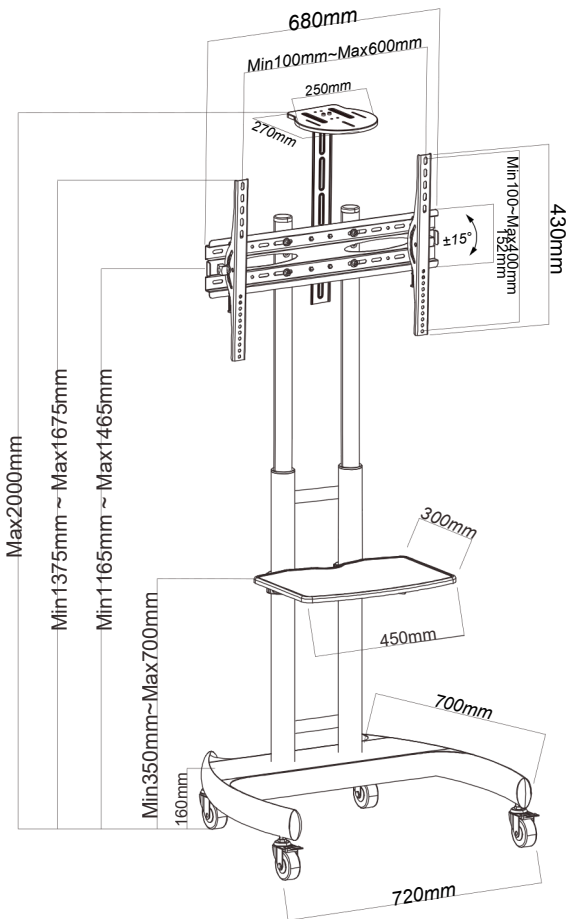

Parameter	Specification
Model	TA-MP18D
Product Type	Heavy-Duty Full-Motion TV Wall Mount
Recommended Display Size	45"–90"
Maximum Load Capacity	60 kg / 132 lbs
VESA Compatibility	200 × 200 to 800 × 600 mm
Mounting Width Adjustment	160–832 mm
Mounting Height	Approx. 620 mm
Mounting Plate Area	Approx. 410 × 376 mm

Wall-to-Display Depth	Approx. 66–337 mm
Material	SPCC Steel
Adjustment	Multi-position adjustment
Application	TV / Professional Display

Applications

- Conference Rooms & Meeting Rooms
- Classrooms & Training Rooms
- Corporate Offices
- Video Conferencing Rooms
- Interactive Display Installations
- Digital Signage
- Presentation & Collaboration Spaces
