

TA-MP18C

PUSH PULL MOUNT

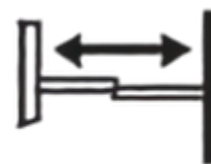

TV
50kg/110lbs

Screen Size
46-85

VESA Compatible
Max. 1000x600

Profile
47 ~ 222 mm

Level
+3° ~ -3°

Product Overview

The TA-MP18C Push-Pull Video Wall Mount is engineered for professional AV installations requiring strength, precision, and easy maintenance. Designed for 46" to 85" displays, it supports VESA mounting patterns up to 1000 × 600 mm and accommodates displays weighing up to 50 kg.

Its innovative push-pull pop-out design allows installers to extend individual displays for effortless rear access during installation or servicing without disturbing neighboring screens. Fine micro-adjustment controls enable accurate height, depth, and lateral alignment, delivering a perfectly flat and seamless video wall.

Constructed from premium heavy-duty steel with a durable powder-coated finish, the TA-MP18C offers exceptional stability for demanding commercial environments including control rooms, digital signage, command centers, corporate lobbies, retail stores, educational institutions, and broadcast facilities.

Key Features

- Supports 46" to 85" LED/LCD Commercial Displays
- Maximum Load Capacity: 50 kg
- Compatible with VESA 100 × 100 mm to 1000 × 600 mm
- Professional Push-Pull Pop-Out service mechanism
- Precision Micro-Adjustment for perfect display alignment
- Quick rear access for maintenance and cable routing
- Heavy-duty steel construction
- Durable black powder-coated finish
- Slim wall profile
- Secure locking mechanism
- Ideal for modular video wall installations
