## EXPERIENCE

**Bixlers,** Montreal — *Full Stack Web Developer ([bixlers.com](bixlers.com))*

SEPT 2022 to  PRESENT

- Develop and maintain robust and scalable Shopify ecommerce web applications, leveraging cutting-edge front-end (React JS through Shopify Hydrogen framework) and back-end technologies (Node JS).

- Collaborate with cross-functional teams, gathering requirements and expertly translating them into technical solutions.

- Implemented responsive, accessible and user-friendly interfaces.

- Utilize Agile (Jira) and Sonar Cloud to streamline development , improve productivity and improve code quality by 85%.

- Resolve technical issues promptly, minimizing disruptions to project timelines.

- Conduct testing, debugging, and integrated third-party services and APIs (REST APIs and GraphQL APIs)

- Actively participate in code reviews, ensuring code quality and consistency.

- Stay up to date with emerging web development trends and technologies.
