

**LEARN  
AHEAD**

**Learning  
Tomorrow's  
Skills Today**

There is paradigm shift in every sector globally, largely spearheaded by massive technological developments. Poor learning outcomes, gaps between text books and real life Vocations demand an **Urgency for the students to re-imagine themselves**. Being physically present in the class isn't the only learning option any more. Learn Ahead offers a futuristic personalized education model for you.

## Solution In Your Phone

	Basic Knowledge	Critical Knowledge
At-Home	Well defined, self-regulated learning outside the classroom assisted by technology and focusing on fundamental knowledge	
At-Class		Active learning activities inside the classroom, most of the times in groups, focusing on critical knowledge competencies

# Preparing children to thrive in an unpredictable future

**“65% of kids entering schools today will end up in the jobs that don’t even exist today. How can we prepare kids for the jobs that don’t exist yet”**

**World Economic Forum**

**“Technology is advancing at a rapid pace; we have no idea how our world will be organized in 20 years.”**

**McKinsey Global Institute**
