Swiss researchers develop technology to make hydrogen from air

▲ The prototype developed by EPFL researchers. Alain Herzog

EPFL scientists have developed a prototype of a solar-powered device capable of extracting water from the air and converting it into hydrogen.

Embracing systemic and cultural changes to bring about “long-termism, now”

by Julia Binder
Published 5 May 2023 in Sustainability • 6 min read

Organizations should embrace more radical structural and cultural changes in order to pivot away from a focus on immediate problems and solve the big, long-term challenges of the future, a panel at the St. Gallen Symposium argued.

Switzerland leads Global Innovation Index 2022

> BACKGROUND

29.09.2022

Switzerland is the most innovative country globally according to WIPO's Global Innovation Index. It leads globally in innovation outputs, and specifically in patents by origin, software spending, high-tech manufacturing and production and export complexity.

Number of sustainable start-ups founded since 2005 per 100,000 inhabitants

2023 Edition

Program At A Glance (9:00 - 18:30)

Our program is built around 3 interconnected topics:

Climate Action, **Biodiversity & Nature**, and **Equity & Inclusion**

09:00 - 09:50

Opening

09:50 - 11:10

Block 1: Climate Action

11:15 - 12:00

Masterclasses

12:00 - 13:00

Lunch

13:00 - 14:30

Block 2: Nature & Biodiversity

14:30 - 15:00

Break

15:05 - 16:50

Block 3: Equity & Inclusion

16:55 - 17:15

Closing

17:15 - 18:15
