MOLTEN

sconce

MOLTEN is a collection of sculptural sconces that captures expression and strength through softness, fluidity, and reflection. The process-driven designs were hand-sculpted in clay, and cast in polished white brass, resulting in a reflective sensation of liquid motion that is frozen in time. Polished to a high sheen, the white brass is transformed into sculptural mirrors, adorning the space to subtly reflect the movement and life of the people in it. When lit, the sconces cast a warm, glowing halo against the wall.
