

JOURNEY TOWARDS SUSTAINABILITY

SHREY CARE

OUR MISSION

FOR A SUSTAINABLE AND GREENER FUTURE

CARBON NEUTRAL FUTURE TARGET 2035

Eco-materials by 2030

Sourcing 70% of our materials from local, eco-friendly vendors.

Carbon reduction measures

Pledged to reduce our carbon footprints by half in the coming years.

SHREY CARE

With the on-set of the Shrey Care initiative, we started replacing our fabrics, trims & packaging with recyclable yarns.

2035

By the end of 2035, the intent is to become an entirely biodiversity-friendly sportswear and gear producer. Our objective will therefore be to reduce our Carbon footprints to negligible and to introduce measures for decarbonising.

2023

35% Energy Efficiency

Pushing technological boundaries in every stitch and seam.

2022

2021

We entrenched the idea of sustainability into our work ethic and adopted the LDPE- Biodegradable packaging for our products.

2020

REIMAGINING SPORTSWEAR FOR A GREENER PLANET

"Our mission is to be pioneers in eco-conscious innovation while ensuring premium quality."

LDPE PACKAGING

We have been using biodegradable material for a long time and not only that, even the price tags and informative tags too are fabricated with environment friendly fabrics.

The need to restore the environment and to transform the ways of living has been propagated by Shrey with the use of tags and trims, made of environment friendly material so that carbon emissions are kept in check when they are disposed off, burnt or dumped in landfills.

SUSTAINABLE TAGS

RECYCLED FABRICS

To exemplify the value of recycling, we use 45% recycled yarn as our raw material. We try to re-furbish and re-design all of the worn-out sportswear for our people.

Be it workers, salesmen or even executives, everyone working at our place uses bicycles to travel for work. We maintain our devotion to nature from work to life. Regional labourers even walk to the workplace and contribute to the larger cause of humanity.

EMPLOYEE & CULTURE

BIODEGRADABLE
PACKAGING

Shrey Care Initiative: It's in Our DNA

- Our four pillars guide every decision we make.
- Each product we craft carries the essence of our sustainability values, from recycled yarns to eco-friendly packaging.

REFUSE

We commit to responsible production by refusing to use unnecessary materials or manufacture items that don't serve a clear purpose.

REUSE

We prioritise the use of recycled polyester and organic cotton across our product lines.

REDUCE

Our commitment to reducing waste extends across every aspect of our operations.

RECYCLE

We incorporate recycled materials into our products and promote end-of-life recycling options.

COLLABORATING FOR GLOBAL IMPACT

A photograph of a paved road with double yellow lines, curving through a dense forest. Sunlight filters through the trees, creating a warm, golden glow on the road surface. The trees are tall and leafy, with sunlight creating dappled patterns on the ground.

The Journey Towards 2035

What's Next?

“ We aim to go beyond compliance, striving to make a positive impact on the sports-wear industry. By 2035, we're committed to not only meeting but also surpassing global sustainability standards.

Together, We Create Change!

At Shrey, sustainability isn't a choice – it's our responsibility. Let's continue this journey, building a future where sportswear and sustainability co-exist in harmony.
