Yashveer Singh Rajpoot

Full-Stack Web Developer | React, Node.js, MongoDB | Built Client Projects & Scalable Web Apps | Intern @ Unified Mentors
South West Delhi, Delhi, India

Summary

I'm a Full-Stack Web Developer with a knack for building clean, scalable, and user-friendly web apps. I've been in the trenches, working on real-world projects where every line of code counts. React, Node.js, Express, MongoDB, I've used them all to create applications that not only work but actually make a difference.

Right now, I'm interning at Unified Mentors, diving into frontend features, APIs, and getting my hands dirty with development workflows that push boundaries.

What I work with:

- Frontend: HTML, CSS, JavaScript, React
- Backend: Node.js, Express, REST APIs
- Database: MongoDB
- Tools: Git, GitHub, Postman, and yeah VS-code too(VS Code - No dead humour...)

Portfolio: <https://yashveercodes.github.io/>

I'm always open to Full-Time Jobs, Part-Time Jobs, internships, freelance gigs, and junior full-stack roles.

Experience

Unified Mentor

Full-Stack Web Developer Intern

November 2025 - Present (2 months)

- Built and maintained full-stack web features using React and Node.js
- Developed REST APIs and integrated MongoDB databases
