

PARKING LOTS & FACILITIES SECURITY SOLUTIONS

Page 1: Surface Lots, LPR Entry Gates & Perimeter Theft Prevention

AUTOMATED LPR & ENTRY GATE SYSTEMS

Control vehicle access and maintain strict entry logs using ultra-fast License Plate Recognition (LPR) cameras linked with automated barrier gates.

- **High-Speed License Plate Recognition:** Captures license plates accurately day or night in all weather.
- **Automated Barrier Gates:** Seamless entry for registered monthly permit holders and staff.
- **Pay-Station & Ticket Kiosk Security:** Overhead cameras securing payment terminals and cash boxes.
- **Tailgating & Anti-Passback Analytics:** Flags unauthorized vehicles attempting closely stacked entry.

OPEN LOT & PERIMETER PROTECTION

Eliminate dark corners, prevent vehicle break-ins, and stop catalytic converter theft across expansive multi-acre parking facilities.

- **Long-Range PTZ & Panoramic Views:** High-definition multi-sensor cameras covering wide driving aisles.
- **Low-Light & Thermal Night Vision:** Crisp color recording under minimal light or pole lamp outages.
- **Catalytic Converter & Theft Deterrence:** AI detection flagging suspicious loitering near parked cars.
- **Emergency Strobe & Blue-Light Poles:** Instant high-visibility panic stations for pedestrian safety.

COMPLETE PERIMETER DEFENSE & FRAUDULENT CLAIM SHIELD

Protect property owners against vehicle damage disputes, staged slip-and-fall claims, and after-hours trespassing with high-density 4K video recording.

**PARKING
SHIELD**

AUTONOMOUS SOLAR UNITS, AUDIO TALK-DOWN & COMMAND TELEMETRY

Page 2: Rapid Mobile Surveillance, Active Audio Deterrence & Central Monitoring

AUTONOMOUS SOLAR SURVEILLANCE TRAILERS

Deploy rapid mobile security units to remote lots, overflow parking, or temporary event grounds with zero trenching or power cabling required.

- **Zero Utility Grid Dependency:** Heavy-duty solar panels with high-capacity battery power.
- **30-Foot Telescoping Mast:** Elevated 360-degree aerial surveillance over large vehicle bays.
- **Cellular LTE Wireless Telemetry:** Encrypted live video streams transmitted directly to command hubs.
- **Rapid On-Site Deployment:** Towed and operational within minutes for immediate site coverage.

24/7 ACTIVE MONITORING & VOICE TALK-DOWN

Combine AI video analytics with live central monitoring watchmen to stop criminal activity before damage occurs.

- **110dB Audio Voice Talk-Down:** Live operators issue direct verbal warnings to trespassers.
- **Flashing Red/Blue Security Strobes:** High-decibel sirens and strobes triggering on boundary breaches.
- **Priority Law Enforcement Dispatch:** Verified real-time video alarms receive rapid police response.
- **High-Retention Cloud Archives:** Secure off-site video storage for legal and insurance reviews.
