

CASINO & GAMING FLOOR SECURITY SOLUTIONS

Page 1: Table Games, Cash Cages & Gaming Commission Compliance

TABLE GAMES & DEALER PITS

High-stakes table games demand uncompromised visual clarity, rapid frame rates, and zero blind spots to detect sleight-of-hand movements and chip discrepancies instantly.

- **60FPS Overhead Zoom:** Ultra-HD PTZ dome coverage capturing card suits and chip stacks.
- **Payout & Dispute Resolution:** Immediate video retrieval to resolve dealer and player disputes.
- **Pit Area Monitoring:** Continuous multi-angle recording over chip trays and drop boxes.
- **Dealer Action Audit Trails:** Timestamped footage archived for gaming board compliance.

CASH CAGE & VAULT OPERATIONS

Securing high-density cash drop zones, count rooms, and vaults with strict multi-person authorization controls and dedicated surveillance telemetry.

- **Dual-Custody Vault Access:** Biometric and smart RFID card dual-authentication locks.
- **Count Room Surveillance:** High-resolution 4K overhead cameras logging cash handling.
- **Armored Drop Bay Tracking:** Dedicated perimeter cameras covering cash transport routes.
- **Anti-Tamper Alarm Triggers:** Silent duress signaling linked to central command centers.

GAMING CONTROL BOARD COMPLIANT ARCHITECTURE

Engineered to satisfy tribal and state gaming commission mandates, featuring redundant RAID video arrays, uninterrupted power supplies, and 30–90 day retention.

**GAMING
COMPLIANT**

AI ANALYTICS, PERIMETER PROTECTION & CENTRAL COMMAND

Page 2: Facial Recognition, Resort Access & System Telemetry

FACIAL RECOGNITION & AI ANALYTICS

Deploy advanced AI image processing to identify barred patrons, card counters, and VIP guests the moment they enter property grounds.

- **Self-Excluded Player Flags:** Automatic matching against barred individual databases.
- **Entrance & Escalator Scanning:** Seamless identification at hotel lobbies and garages.
- **Behavioral Anomaly Alerts:** Detecting loitering around cash machines and restricted corridors.
- **VIP Guest Arrival Alerts:** Instant notifications sent to casino host consoles.

24/7 COMMAND STATION TELEMETRY

Centralized monitoring integration mapping live floor camera matrices directly to security officer consoles for rapid incident dispatch.

- **Instant Video Wall Mapping:** Dynamic layout switching when alarms are triggered.
- **LPR Garage Controls:** License plate tracking covering guest parking rows.
- **Silent Duress Dispatch:** Direct priority communication channels to local law enforcement.
- **Fault-Tolerant SAN Storage:** Zero-packet-loss failover storage architectures.
